Press briefing of Cabinet Decision taken on 2013-06-20

Regulating of International Schools and Private Schools

a number of International Schools are presently functioning in the country and they have been registered as business ventures under the Board of Investment or Companies Act. It has been found necessary to bring in amendments to existing rules and regulations for the effective functioning of the International Schools and Private Schools in keeping with the needs of the country. The proposal made by Hon. Bandula Gunawardena, Minister of Education, to proceed with the proposed arrangements for the formulation of a legal framework and a mechanism to regularize these schools to be in line with the national educational policies, was approved by the Cabinet.
